Seasonal updates and information for the residents of Appleby, Santon & Clapp Gate area

St Bartholomew's at Easter

Revd Alice Nunn

Dear All,

As spring progresses and the days lengthen we at St Bartholomew's are preparing for Easter and I'd like to invite you to all, or some of our services for this most important and holy time of year.

Palm Sunday is on the 9th April and services will be held at Roxby 9.15am or Winterton 10.45am. During Holy week, on Tuesday 11th April we will have a short service of Sung Compline at 6.30. On Good Friday we will hold a service at 9.15am. Easter Day, the 16th will be marked by a service at St Bartholomew's at 9.15am.

In keeping with the celebration everyone is invited and if you'd like to place a few flowers in church please contact John and Rosemary Jeremiah to arrange this. Flowers needn't be expensive, as I look around Appleby I see lots of gardens with spring flowers and bulbs, so perhaps a few of these?

This comes with my very best wishes and prayers for a holy and joyful Easter.

Love from Alice, your Vicar

Change to church service times

Church services at St. Bartholomew's are now at 9.15am on the 1st and 3rd Sundays. The change replaces the 8am start on the 3rd Sunday.

Call for Cakes

Appleby Country Fayre on 18 June is fast approaching. Once again there will be a cake stall in aid of the Church to raise much needed funds. The Team who run the stall are asking for cakes to sell on the stall.

For details contact Pam Palmer Tel: 733001

Parish Council Keeping You Informed

Chairman Appleby Parish Council

Thank goodness the winter is now behind us and we are looking forward to spring sunshine and warmer days. The gardeners amongst us will be welcoming this time of year and also looking forward to planting the new crops for summer harvest. Which brings me quite nicely onto the old subject of allotments. You may recall that the Parish Council have been attempting (unfortunately not very successfully) to find a piece of land which can be used for villagers to have allotment plots within the village. Sadly our efforts came to nought so we had to broaden our horizons and look elsewhere.

Winterton seemed to be the obvious choice, should the Town Council have spare plots available for us to take over. I approached Council members at Winterton to enquire if plots were available at their Holmes Lane site, which is a few miles to the north of Appleby. I attended one of their Council meetings and put Appleby's case forward for our villagers to have the opportunity to 'hire' either full or part plots on their site. Thwarted once again following this, as Winterton residents have 'first dibs' on vacant plots and as there were only 6 available at the time I requested, all these were taken up (bar one) at the start of their allotment year, which commences in March. So we are back where we started. I apologise for the length of time it's taken even to get to this stage, but the Parish Council will keep on trying.

As mentioned in previous Newsletters Appleby Parish Neighbourhood Plan is being developed and is now well on its way to being completed. Many thanks to all the residents who have given their ideas and views during the process of consultations and surveys. In this edition the Group developing the plans have now concluded the objectives, these can be found at page 3.

During the consultations for the Appleby Parish Neighbourhood Plan a number of residents touched upon air quality around the parish. North Lincolnshire Council's Environmental Health department actively monitor the air around the region and particularly around the steel works. The results for the parish are outlined on page 4 and 5.

You may have noticed that the meeting days for Parish Council has changed. After a period of considerable debating it was decided that the majority of Councillors were free from other tasks and meetings on Tuesdays rather than Mondays, so we start regular Parish Council meetings at 7.00pm on Tuesday evenings in the village hall. Our next meeting, which is open to the general public, (as all our meetings are and we welcome your attendance), is on Tuesday 25th April, and the May meeting (which is also the Annual Parish Meeting) is on Tuesday 23rd. This one commences at 6.00pm so that matters can be discussed prior to the regular 7.00pm get-together. We look forward to seeing you there.

Essential maintenance taking place at the church

John Jeremiah

Preparations for essential repairs to the windows are ongoing. We have now had three inspections from stained glass experts and are awaiting the third report. The next step will be to gain approval from the Diocese in Lincoln and then apply for appropriate grants. We also plan to make repairs to the tower and vestry. The architect is working on this so watch this space.

Very Illuminating

We would like to thank all those residents who have contributed to sponsoring the church illuminations in the evening. We have raised almost £400 by doing this, which is invaluable to our renovation funds. We have vacancies from the week commencing 22nd April, so please get in touch with John or Rosemary on 733484 if you wish to sponsor the church light

Sine Nomine Choir

On 10 June at St Bartholomew's there is to be a splendid evening of choral music performed by Sine Nomine.

Sine Nomine an International Touring Choir, conducted by Susan Hollingworth, is a group of around 40 singers from all over Great Britain. The choir performs a wide variety of repertoire and holds just four rehearsal/concert weekends each year. Each concert is held in a different UK venue and the choir organises a foreign tour once every two years. Sine Nomine has performed at a number of UK choral festivals, including the prestigious Worcester Three Choirs Festival and are regulars at the Presteigne Festival.

Musical Director: Susan Hollingworth

IN CONCERT

St Bartholomew's Church, Appleby
Saturday, June 10, 2017 at 7.30

£10 - including refreshments

Village Hall News

Clive Prior

Appleby Fayre Committee

Appleby Country Fayre 18 June 2017

The Fayre day is only a little over 3 months away, a lot of work is going on behind the scenes getting things in place to make this a great day. The money generated from the fayre is used to help with the upkeep of our village hall.

This year we are trying to give the fayre a more country feel, we have already secured some new acts for the main arena, K9 Quackers and Green Ginger Garland Dancers being the main ones. Additional acts are still to be confirmed.

Appleby Fayre simply would not happen without the goodwill and help of its residents and friends, this year is no different, we need your help. On the Fayre day there is a variety of tasks where help is needed. If you feel you could help, please e-mail us at; applebyvillagehall@gmail.com, These tasks include; helping out at the gate, the refreshment tent, the barbecue, directing traffic, selling grand draw tickets, etc. I am not suggesting this is for the full day, but with sufficient numbers, the tasks could be shared. All volunteers receive free entry to the Fayre and a beer in the beer tent.

Volunteers are also needed on 17 June for the usual Saturday morning activity of 'setting up'. We usually meet at the village hall at 9am. Coffee/Tea and bacon butties are provided for all.

We are also hoping to run a couple of fun events and stalls ourselves, there are some interesting ideas. If you would like to help develop these event and stall ideas. You would be more than welcome to come along to the planning meetings we are holding. Please e-mail applebyvillagehall@gmail.com marked for **Clive Prior** if you would like to be involved.

Would anyone be kind enough to make a scarecrow for the fayre day?

We are planning a Fayre Day scarecrow hunt for the children, and providing we have enough scarecrows, we will have them on display en route from the car park to the fayre entrance. Hopefully this will add to the 'country show feel' of the day. Please email applebyvillagehall@gmail.com marked **Scarecrow** if you can help.

The usual attractions such as barbecue, beer and refreshments tents, grand raffle draw and a variety of stalls will be there again.

Thanks in advance

Appleby Village Open Gardens

There will be no Open Gardens and Scarecrow Day this year.

This new event has been a roaring success but it was felt holding it every year would water down interest as well attendance. The event will now be run on a biennial bases, so something to look forward to in 2018

Still want to make a scarecrow this year?

The Fayre Day committee is looking for number of scarecrows to be on 'parade' during Fayre Day. Anyone who would like to build a scarecrow for the event please contact the committee (see above article for details)

Appleby Parish
Neighbourhood Plan
Your Parish, your future

Appleby Parish Neighbourhood Plan

Joy Powell Lead

Appleby Parish Neighbourhood Plan Group

Work has progressed steadily since Christmas and the drafting of the final document has reached a critical stage with the confirmation of the Vision, Objectives and the identification and wording of the Planning Policies. When / if the plan is adopted North Lincolnshire Council will by law have to take into account our Planning Policies when considering planning applications. This will include any new buildings or alterations to existing buildings in the parish.

The policies are being appraised by North Lincolnshire Council to ensure they do not conflict with their own policies.

The final wording for our Vision is:

Appleby a rural parish in the Ancholme Valley, whose natural environment and distinctive buildings should be preserved and enhanced.

Objectives

A number of key objectives have been identified setting out the principal priorities for future development to enable this vision to be delivered throughout the Parish.

- 1: seek to ensure that any development is acceptable in planning terms with reference to design, scale, access, residential amenity, impact on visual amenity, drainage, ecology and all policies contained within this Neighbourhood Plan;
- 2: promote a high standard of design and scale which reflects the local character of the Parish of Appleby and incorporates high standards of energy efficiency and flexibility to meet the changing needs of present and future generations;
- 3: support appropriate applications for infill development where it reflects the local character of the settlement in terms of scale and design and will contribute to enhancing the built environment of the Parish for instance to enable those wishing to 'downsize' but remain living within the Parish;
- 4: foster the rural community by supporting applications for affordable housing at appropriate sites intended to meet needs of affordable housing in the rural area as identified by North Lincolnshire Council's Strategic Housing Market Assessment;
- 5: support the local economy by encouraging the conversion of existing redundant and other buildings to provide suitable business and sustainable employment opportunities which respect the character of the local countryside, in particular, opportunities for a farm shop, the development of traditional/artisan craft enterprises and live-work units where appropriate;
- 6: promote social development by safeguarding and enhancing community facilities and open spaces to support health and wellbeing for everyone's benefit and to sustain communities including promoting the provision of children's play space at Santon;
- 7: support the relevant highway authority in securing highway improvements throughout the Parish;
- 8: support measures to improve public transport, highway safety and to improve accessibility for non-vehicular users to access the countryside;
- 9: protect, conserve and enhance the character of the local built environment and the area's heritage assets including the Conservation Area in Appleby village;
- 10: support measures to introduce a heritage trail throughout the Parish highlighting the wealth of historic cultural features;
- 11: safeguard and enhance the countryside within the Parish and its distinctive landscape character as part of the Ancholme Valley. In the open countryside, outside of settlements and green infrastructure corridors, development will only be supported where it is essential for the purposes of agriculture, agricultural diversification and forestry; and
- 12: protect and enhance the network of habitats, watercourses and wildlife corridors that are important for biodiversity and geology and any other areas suitable to create an integrated network of natural habitats throughout the Parish.

The wording of the draft plan has incorporated the your views as expressed so far during the consultations and will be available for your comments before being sent to North Lincolnshire Council and then for formal appraisal by an independent assessor.

Following this there will be a referendum for all residents on whether you want to adopt the plan

Appleby's Heritage

The Iron Industry 1860 to 1867

This, the second article in a series on the Winn family of Appleby who, as landowners became the creators and main contributors to what was to become the substantive growth of Iron making in the district. This development took place during mid 19C to early 20C. We now move forward with a brief look at key events between 1860 to 1867

The rise of the Scunthorpe iron industry began with the discovery, or the rediscovery by Roland Winn in 1858 of the early Romano-British workings of the Appleby and Frodingham ore fields The ore bed is a lens shape seam running north-to south stretching from the Humber to what is today Ashby Ville. The ore's greatest thickness being near Santon at about thirty-two feet.

Key events 1860 to 1867

1860: South Yorkshire Railway and River Don Company (SYR) line completed from Doncaster to Keady where it terminated. To move goods easier from Scunthorpe, in November 1860 Parliament approved a bill for railway to be constructed by Charles Winn as sponsor from Keady to Barnetby. The line was to be known as the Trent, Ancholme Grimsby railway.

1864: The Dawes' **Trent Iron Works** furnaces came on line and started production. The site was about midway along what is Dawes Lane today.

1864: Rowland Winn agreed with a Leeds brick-maker, Joseph Cliff, to build furnaces on leased land about a mile to the east of Scunthorpe station forming the **Frodingham Iron Co**

1864: A group of Manchester businessmen led by Daniel Adamson built their first furnace during the summer of 1865, the largest in the area, standing seventy feet high and measuring twenty feet in the bosh, and close-topped. The new company was named the **North Lincolnshire Iron Co.**

1866: **Trent, Ancholme Grimsby railway** completed and opened

1867: **Appleby Iron Company** was formed. Work commenced constructing 3 blast furnaces and all ancillary works on Appleby Estate just west of the boundary for Santon / Santon Beck on what was Santon Lane and being connected by a branch railway to the Trent Ancholme and Grimsby line. Due to a number of technical issues production did not commence until 1876

In future issues we will look at 1870 onward.

Superfast Broadband for Santon

NLC have advised that Superfast Broadband is likely to be available for Santon residents either late 2017 or early 2018, using money remaining from previous broadband projects.

As mentioned in earlier newsletters Santon is already connected to Fibre to the Cabinet (FTTC) technology. The fibre cabinet is located opposite San Pietro Restaurant on High Street East. Unfortunately, the distance between the fibre cabinet and Santon, of some two miles, is too far for there to be any improvements of broadband speeds. How the promised upgrade will be made hasn't been said other than it will be available later this or early next year

No solution has been found to extend the fibre cables to the Old Sawmill / Carr Side, Station Area nor Clapp Gate. The Parish Council has written to our MP, Andrew Percy, expressing disappointment that similar facilities are not being made available for residents at these locations.

The solution on offer for the Old Sawmill / Carr Side, Station Area and Clapp Gate is wireless broadband, but the choices of ISP and costs for similar services are not as favourable, albeit meeting Government targets for connection speeds. The supplier of the wireless system is Quickline of Hull.

Broughton Butterflies

Sharon Banks

The club times at Appleby Village Hall has changed and is now 2pm to 2:45pm each Saturday.

Since opening in Appleby new members have joined the group, a few of them are boys who are known as the "Broughton Hotshot's"

Upcoming events are:

- Scawby Gala on Sunday 11th June
- Broughton In The Park 16th September
- Cleethorpes Carnival – Date to be advised
- Barton Carnival 9th & 10th September 2017

Exams were held on the 4th February 2017, the competitors from Broughton Butterflies received Highly Commended and Distinctions certificates with gold medals for Cabaret, Razzmatazz, Military, and Dancetwirl. All entrants passed their exams.

The next competitions are in May The Broughton Butterflies are entered into four categories Dancetwirl, Military, Lyrical, and Freestyle

There is now a Fundraising page on Facebook "Butterfly Crafts" to help support the club in uniforms and outfits for competitions and events.

Why not come and join in the fun every Saturday at Appleby Village Hall, 2 to 2:45pm.

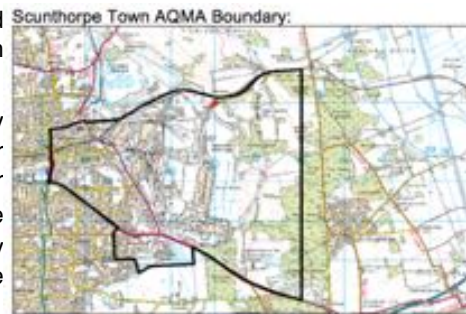

Air Quality Monitoring

North Lincolnshire Council Environmental Health Department

North Lincolnshire Council (NLC) operate a number of air quality monitoring stations within the authorities region. The majority of these monitoring stations are located around the boundary of the Scunthorpe integrated steelworks.

The main measurement of air quality is by Particle Measure, the data collected and analysed by NLC is based on a particle size of 10 micron in size or less, this is abbreviated to PM₁₀. To make a size comparison, a human hair is about 100 micrometers, so roughly 40 fine particles could be placed on its width. This measure is a mixture of materials that can include smoke, soot, dust, salt, acids, and metals.. Particulate matter also forms when gases are emitted from motor vehicles and industry undergo chemical reactions in the atmosphere

The council declared an air quality management area (AQMA) in 2005 for likely breaches of the 24 hour mean for PM₁₀ dust in Scunthorpe. And in 2008 the council declared an air quality management area for a breach of the annual mean for PM₁₀ dust at Santon.

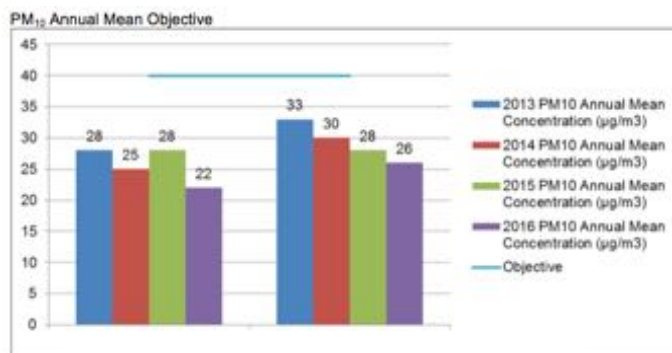

Current Air Quality Monitoring – Santon

North Lincolnshire Council have two instruments measuring PM₁₀ located 150 yards from Santon adjacent to the entry / exit barrier gates to British Steel. For the purpose of DEFRA reporting, the FDMS* instrument is used as it meets the European reference standard for PM₁₀ monitoring. The TEOM** instrument at this site has a history of over recording. However the Council continue to operate the instrument as data from it is used to identify trends.

*Filter Dynamics Measurement System (FDMS) records gravimetric [or in other words the weight of] equivalent particulate data

**Tapered Element Oscillating Microbalance (TEOM) measures the mass collected on an exchangeable filter cartridge by monitoring the corresponding frequency changes of a tapered element

(Further reading see uk-air.defra.gov.uk/assets/documents/reports/aqeg/ch5.pdf)

The Council also operated an air quality monitor at a property in Santon from 2007 to 2014. The monitor was removed in December 2014 due to compliance with PM₁₀ air quality objectives. Full results for this monitor are:

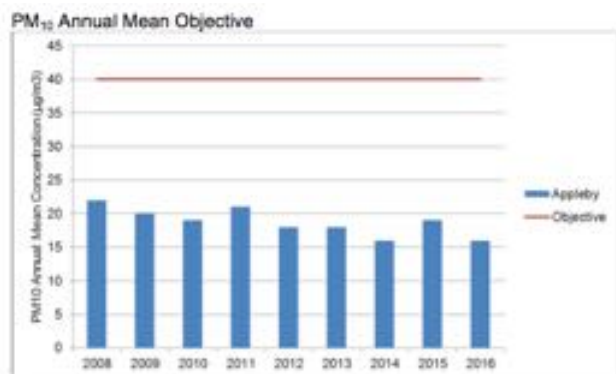

High Santon		
Year	Annual mean ug/m3 (objective is 40 ug/m3)	Number of daily exceedances (objective is no more than 35 days)
2007	31	38
2008	31	36
2009	27	28
2010	24	13
2011	29	35
2012	25	10
2013	25	12
2014	26	19

cont: on Page 5

cont: from Page 4

Current Air Quality Monitoring Appleby

In 2007 an air quality monitor was located in Appleby. This monitor has always been compliant with PM₁₀ air quality objectives:

The Council have no plans to remove the monitor at Appleby as it provides a good site to monitor background levels of PM₁₀ and to determine the effect of regional or national pollution events like Saharan Dust.

As mentioned above PM₁₀ is particulate matter less than 10 microns in diameter. These are very small particles.. This dust is of particular importance in terms of health effects because the particles are small enough to be breathed in and carried deep into the lungs where they can cause inflammation and a worsening of the condition of people with heart and lung diseases.

Investigation into the possible sources of dust identified that the integrated steelworks was the principal source of the emissions. Monitoring data shows that the weather conditions, wind speed and direction and the distance from the steelworks are important factors in determining whether an area is likely to breach an air quality objective.

The Council is working closely with the Environment Agency, Public Health England and the operators on this site to bring about improvements in the levels of PM₁₀ dust. Data shows that the level of PM₁₀ has been declining and the Council is in the process of reviewing the AQMAs and updating its Air Quality Action Plan.

Further information, including latest air pollution levels, data and reports are available at www.nlincsair.info

Interested in mains gas?

Let us know, complete the enclosed card

After recent enquiries by residents the Parish Council regarding mains gas being supplied to Appleby village, a letter was sent asking National Gas Grid for information about connection costs.

To get connected the cost of installing the main would be split equally between all the properties within what is called an infill area project. National Grid Gas does not pay a contribution towards the main.

On top of the cost of the main, each property will pay for their own service off the main and that would be calculated individually depending on the distances and work involved.

40% of the properties within the infill area would have to accept and pay for the mains and service quotation before the infill goes ahead.

The mains contribution cost within the infill area would remain the same for 20 years.

Should you be interested in a mains gas supply please complete the enclosed card and post to or drop it into the Village Hall or e-mail to the Parish Clerk Lynne Watson at clerk@applebypc.org.uk giving your name and address plus e-mail details.

This doesn't make a commitment to purchase, only to receive further information and costs.

theWI Appleby WI
INSPIRING WOMEN
Sheila Rhodes
President,

During the year 2016 we had 13 members evenings covering a variety of subjects including our Anniversary Dinner. We had 8 guest speakers, a summer garden evening, an annual outing and AGM in April. The Anniversary Dinner and the Christmas Party food were both delicious. We held a workshop evening where members made a variety of glass plaques which proved to be very successful. We also welcomed 3 new members during the year, Rosalind, Judith and Dianna.

In our programme this year we have planned to repeat another craft evening in November, entitled Christmas Crafts with Pam Palmer. So far this year we have had 3 excellent speakers:-

January, Tim Hudson spoke about his travels around India where the tourists don't go.

February, Hazel Burnham gave a most interesting talk travelling solo around the world.

Our March evening we had a change of speaker to the advertised one, Jean Spittori along with her daughter Karen Grey (pictured below) both gave an excellent presentation on The Learning Disability Partnership.

Three members will be attending the Lincolnshire Humberside Federation meeting at The Oasis Academy in Grimsby on the 1st April it is the 40th anniversary of the federation which falls on that day. The guest speaker is Julie Summers who wrote the book "Jam Busters" which is the story of the W. I. in the second world war and also "Home Fires" which is now a major TV series.

All meetings are held at the Village Hall 7.30 start, For dates and topics please see Dates for your Diary at page 6

**NEW MEMBERS ARE ALWAYS
WELCOME**

Getting ready for the Flower, Presentation and Producer Show

Ian Cross Chair Produce Show

It's official, Spring has sprung and thoughts must inevitably turn to preparing for this year's Produce Show. The schedule will be published and circulated in due course but to enable green-fingered type planning to commence I can confirm that the Flower, Fruit and Vegetable Classes will remain unchanged from last year. As will the tallest Sunflower!

The produce show enters its 51st year in great shape. Thanks once again to everyone for making last year's special anniversary show so memorable. The show embodies much of the spirit that helps to make our community so special. With over 100 Classes ranging from art and crafts, baking, preserves and poetry through to horticulture, it's a great opportunity to rekindle old rivalries, make new ones, and show off our collective talents. It's open to residents, family, and those with strong connections to the parish, of all ages. So roll up your sleeves and come along and have a go!

The show will be held on **Sunday 3rd September**, make a note on your calendar - it's sooner than you think!

New mobil communication mast to be built in Appleby

Work will shortly commence building a 15 metre monopole mast to the rear of Ermine House. The mast when fitted out will have three antenna and two dishes for mobil telephone and communications transmissions / receiving.

It is not yet known which of the mobile phone companies will use the new facility. Which ever provider(s) use it will see improvements in reception for their mobile phone customers in the area.

More details can be found by looking at the planning application PA/2016/1294 on the link www.planning.northlincs.gov.uk

Summer Edition out 14 July 2017

Neighbourhood Watch Update

Cllr. Ivor Keyes Neighbourhood Coordinator

The main news throughout winter has been hare coursing on Appleby Carrs where those activities have been as frequent as I've known since living here. Community Police have been very active and there have been a number of successful arrests. Glyn Evans our local gamekeeper has been busy throughout this period and is very proactive with issues relating to our local countryside. Glyn is happy to take calls on 07796470868.

We had a well attended Neighbourhood Watch meeting in January which was attended by Inspector Tim Harvey of Humberside Police and also Tracey Coyne of Safer Neighbourhoods. Inspector Harvey expressed his determination to combat the incidents of coursing. Hare coursing is a seasonal activity i.e. winter when the fields are free of crops. Tim spoke of how hare coursing has become a large betting activity, where large sums of money can change hands between those involved, all of which is illegal, quite apart from the animal welfare issues. It was said that people involved with hare coursing are also suspected of being involved with other criminal activities, which is another reason that the Police like to know what's going on. Our Community Police took on extra overtime to increase their effectiveness over the winter.

As a result of this and other concerns raised at the NW meeting it has been arranged for PCSO Katy McNally to attend the Village Hall café morning every 5th Wednesdays morning to fall in line with her shift. Safer Neighbourhoods have also arranged for Sandra Joyce to drop in to the café in between Katy's visits. Safer Neighbourhoods are funded by North Lincolnshire Council and can help with a number of different social concerns that people may wish to know more about.

It is important to continue to use the 101 telephone service for non emergency calls to the police e.g. suspicious activities and it is never wrong to call 101 - text phone is available on 18001 101. The 999 service should be used for emergency calls or where a criminal activity is known to have been carried out. If you are deaf, deafened, hard of hearing or have a speech impairment, a text phone is available on 18000. Should you have reason to call our local Police from abroad call +44 1482 597 709

For a private chat our Community Police can be e-mailed at

katy.Appleby@humberside.pnn.police.uk or amanda.barnett@humberside.pnn.police.uk
